## General information

### Fire occurred at a square (2025 February).

Fire occurred around the north side playground equipment in a Tone River Yu-Yu Park day camp square on 2025 February 15.

About 3000 square meters of grassland was tanned with this fire, but the spread to the whole square was saved by fire fighting of the city fire fighting to which I ran also there was no damage of an injured person and playground equipment.

When building a bonfire at a square, the cause of the fire was fanned into strong wind, was because a spark scattered and a grassland caught fire, and was burned to wide range by the air which dried and strong wind.

Because I didn't go intentionally this time, "When making a mistake in one step, it led to a horrible accident. Please confirm the surrounding circumstances sufficiently in case of use in a square, defend a rule and manners and use it by safety first." was warned strictly for a person of a cause person of fire (park visitor).

In 2023 January, like, fire occur and because there is a lot of hay and air dries and the winter is easy for strong wind to generate, please pay attention to treat the fire more than usual.

Such as also paying attention to the weather and the surrounding circumstances sufficiently in the purpose which doesn't cause an important accident, never doing an open fire, using stands for bonfires and seats, etc. and bringing burned wood and fuel, etc. home accurately, consider sufficiently, and please use a square for a fire measure.

### About protection in water supply facilities in the park in the winter.

A measure of freeze prevention is being given to a faucet of washing your hands place in Tone River Yu-Yu Park as a measure to a cold wave in the winter.

While the coldness is severe, use of waterworks (Toilet is removed.) can't be done, so please take care as understanding cooperation.

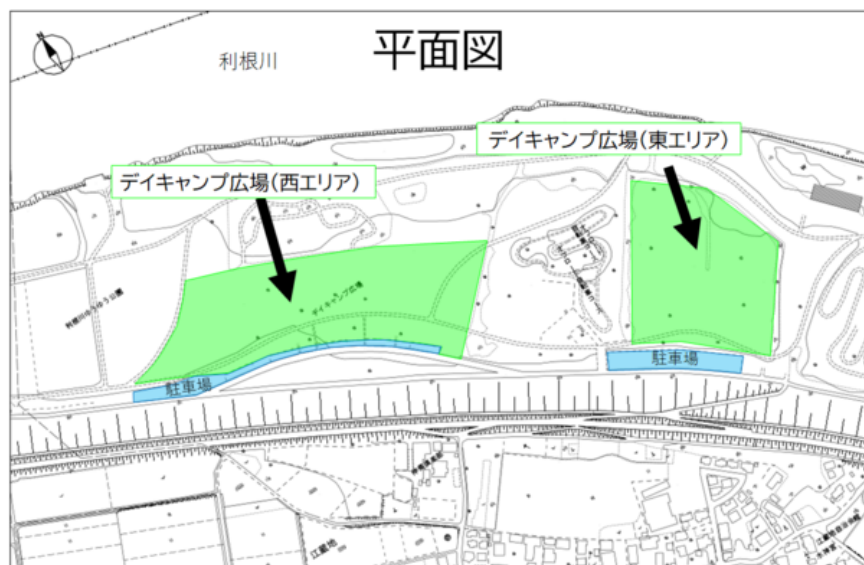

Outside waterworks use cancellation time frame: From the end of 2024 December to the middle of 2025 March. (It's expected to resume waterworks use in sequence according to the change in the temperature.)

The state of the enlightenment handbill distribution

Favor to everybody using a day camp square

Without bringing charcoal and trash home, the situation thrown away is happened to see by a certain heartless person. To have everybody use it comfortably, please **be sure to** bring charcoal and trash back.

It increases in a report of a camp act by all except for a designation place. When finding it, you'll **remove and move immediately**.

**You can't camp with a stay.**

It'll be trouble of the other users and vicinage, so please never do use at any place but a designated place.

Please be careful about handling of the fire sufficiently and use it (An open fire is prohibited.) ※ An open fire is the ground and getting the fire going directly is meant.

It's to receive everybody's understanding and cooperation, and it becomes possible to open a square for free of charge. Please defend a rule and manners and use it for safety and comfortableness also to have many persons use it from now on.

## Fire occurred at a square (2023 January).

When building a bonfire around the north side playground equipment in a day camp square in 2023 January, a grassland caught fire from the spark which was fanned into a wind and scattered, and the fire burned to wide range by strong wind occurred. About 650 square meters of grassland was baked, but the spread to the whole square was saved by the person's early stage fire extinction activity that I was in the neighborhood fortunately also there was no damage of an injured person and playground equipment.

Not performed one, but the damage was also minimal intentionally, but when making a mistake in one step, it was the accident which can lead to a horrible accident.

Because there is a lot of hay in a winter and air dries and the Tone River Yu-Yu Park day camp square is easy for strong wind to generate, handling of the fire more careful than usual, please.

Such as also paying attention to the weather and the surrounding circumstances sufficiently in the purpose which doesn't cause an important accident, never doing an open fire, using stands for bonfires and seats, etc. and bringing burned firewood and charcoal home accurately, consider sufficiently, and please use a square for a fire measure.

Since putting it for used everybody, No Open Flame at the time of strong wind defend a rule and manners, and please take care of cooperation in safe and comfortable square use while considering each other.
